

2011 OTF Summer Program

OTF offered a series of three-day workshops in July and August that provided opportunities for teachers to come together with colleagues to learn, reflect on their teaching practice and share what works in their classrooms. Six types of programs were offered: ***A Sound Investment*** Financial Literacy workshops, environmentally-themed ***Going Green: Learning Goes Outdoors*** workshops, ***Spirit Horse*** follow-up workshop, ***Teaching and Learning in the 21st Century: An Inquiry-Based Approach***, ***Critical Thinking*** workshops, and ***subject-based workshops*** offered in partnership with numerous subject associations that are members of the **OTF Curriculum Forum**.

The OTF 2011 Summer Program far exceeded our expectations with over 1,500 teacher participants. By comparison, last year's total registration for the Camp OTF 2010 workshops was 1,128. The staff at the OTF office worked very hard throughout the spring and summer to ensure the smooth delivery of a total of 40 workshops across the province.

Bark Lake	July 25-27	Going Green: Learning Goes Outdoors	Secondary
	August 8-10	CODE	Integrated Arts (Environmental Focus)
