Project Feedback Sheet

Answer the following questions about your project. You should explain your answers in detail and be as insightful as possible. Each question is worth 5 marks.

1. How close to your original design was your final product? Did it still fulfill the need? Why was it different?

2. What problems did you run into while you were designing and making the project?

3. What changes or modifications did you make to your project? Why were these changes made?

4. What was the most difficult part of your project? How could you make this step easier the next time?

5. How would you change or alter your design if you were to build it again? What do you think was the best part of your project?
