

Patterning & Algebra

Grade 2
Diagnostic

Name: _____

| Diagnostic - checking to see what they already know (Gr. 1 expectations) | Target Met | Still Progressing |
|---|------------|-------------------|
| 1. Create a set in which the number of objects is greater than, less than, or equal to the number of objects in a given set | | |
| 2. Demonstrate examples of equality, through investigation, using a “balance” model | | |
| 3. Determine, through investigation using a “balance” model and whole numbers to 10, the number of identical objects that must be added or subtracted to establish equality | | |

1. Select whether or not the equations below are true or false.

Place a checkmark (✓) beside “True” or “False” below.

| | |
|-----------------------------------|---|
| <div>$1+7 = 3+4$</div> | <div><input type="checkbox"/> True <input type="checkbox"/> False</div> |
|-----------------------------------|---|

| | |
|-----------------------------------|---|
| <div>$8+3 = 5+6$</div> | <div><input type="checkbox"/> True <input type="checkbox"/> False</div> |
|-----------------------------------|---|

2. Fill in the numbers in the balance scale model below.

3. What number is missing in the first domino? Draw the missing dots below.

a)

b)
