

OTF TLC 16-284

A Developmentally Sound & Pedagogically Appropriate Approach to Teaching Through (and about) Problem Solving, K – 4

by Shawn Crowell, Simone Fraser, Catherine Lafferty, Thelma Wedemire

The information is gathered from a variety of sources and jumping from one area to another has made a linear presentation of the findings rather challenging. To compensate, we have presented this information in a series of slides so as to be able to link between them without needing to create an entire web interface to support it. This can be found by going to <https://goo.gl/USj3vf>.

This document, and many of the linked documents, were created in Google Slides or Google Docs or are available as PDFs. It is recommended that you use compatible programs to view the contents.
