

## Homework/ Practice:

All answers are correct → I got it! I understand.

I am ready for more challenge.

Some errors: I can use this feedback

I could do better

I didn't get part(s) of the lesson

My understanding isn't complete

I need to take steps to improve

### Things I can do to improve in multiplication:

- practise with flashcards, worksheets
- try a different strategy
- use a strategy!
- games
- look at mistakes
- ask: where  $<$   $7 \times 7 = 49$   
did I go wrong?  $7 \times 6 = 43$  (42; should  
have taken away 7,  
not 6)
- Ask for help from
