

# Pride in the Profession

## Snowball Activity

Please describe below the first time that you realized and knew that you wanted to be a teacher.

Try to remember where you were, how old you were, and what experience led you to the revelation.

*"A teacher should be smart already because they have to give away their smart to a lot of kids for years. When teachers have finished teaching at the end of the year, they have given all their smart to their kids. They need to get some smart back over the summer and then they start giving it away all over again."*

*McKail - age 7*

Please do not put your name on the paper.
