How has the VLE helped you see your child and their learning this year?

13 responses

Keeps me more involved in the daily activities.

We used the VLE to take pictures and videos of our family experiences at the ROM, Aquarium and Science Centre and my child was able to share with the class!!!

_____ was very, very excited to add to it as soon as she learned we were going to a museum. She was more thoughtful and engaged because she wanted to make sure she could explain things to her friends later.

I live in _____ so it helps me with things I normally may not have being a separated family.

By seeing the presentations made in class.

It has allowed us to see and hear class events and school work that we cannot attend due to work and stuff that is not normally open to see during school time lessons!

by being able to see her work and hear how she presented it

The photos of class activities are so nice to see. Also being able to hear his speeches and oral presentations is very valuable to us as we are never able to make it into school to watch these presentations. I am an educator as well and I get to see (now as a parent) the pride that students have in their accomplishments... it is nice to see their side of learning.

I get to see how she presents herself in front of her class.

Do you have any other comments for us that might help us improve this tool for next year?

9 responses

The mobile app could use some improvements

I wasn't aware of notifications, which was likely my own fault. We occasionally used the VLE to get the words for Lilian when she had missed them in class for whatever reason.

Just please keep this

We most often watched/accessed it on our smart TV.

n/a

I would love to be able to see video along with audio for presentations.

I find it hard to hear the audio that goes along with videos saved on the VLE.

Seemed to work well the way it was set up. Would like more resources for reading practice on the VLE like leveled reading resources.

Would you be interested in attending a parent night next fall to learn more about the VLE?
