

## **Book paragraph**

**The title of the book I read is Foul shot by Paul Kropp. This book is about a school basketball team the Cougars and this team haven't won a game in last few years they will make good result and also the problem for this team is there players are very short. First, the Cougars haven't won any game before because their players are short. Then, they will try to bring new players to the team to make their basketball results better. After that, some students heard about this team and they want to play for this team one player in this team told that student want to play in the school basketball team. Next, those students came to the Gym with the player to coach G the coach for Cougars basketball team, and those players told coach G they want play in the team. Finally, the coach decided to let those students play in the team because those players are tall and also those players want to make the results better and to bring the school from the best teams in the basketball. The character who name Luther is telling the story. I know this because Luther is the main character in the story. The other characters in the story are coach G the Italian student and Deshawn those are main character. The author wants me to know that we should be more patient to get our dream. That's what happend in my book to be more focus in your dream, Abdullah.**

## **Head paragraph**

**I had many thoughts when I read foul shot book. First, the team want to make good results to become better in basketball. then, the team decided got new players for school basketball team. After that, some students in school heard that the school basketball team is getting bad day after day so they decided to join the team. I was also very surprised at parts of my book. When the student decided to join the team to help the team and get better results. It was interesting when coach G decided bring new players this was surprised for me. This book reminded me of my life. My connection is when I was in Iraq my soccer school team was very**

**bad because there is no attention for the team. Those are all my thoughts I had while reading my book Foul shot.**

## **Herat paragraph**

**This book helped me learn a lot about myself. First, I learned how to be patient person because this book talking about a team and they never gave up to get your dream comes true. I also learned how to be fighter on your dream and also keep working hard to get your dream true. This will help me become better person because this book like how to fighter on your dream and never give up to get your dream true. I felt proud when I read this book because it is reminded me when I was in my country Iraq and how my team came better team I also felt proud because we never give up and we kept our dream comes true so that's why I felt proud, Abdullah.**

This particular student showed positive gains in regards to his confidence level and meta-cognition. On more than one occasion during the semester, he was able to articulate his what his reading and writing processes were and to expand on what he learned as a result on video. Seesaw allowed him to record and re-record in a quiet and “safe” environment. As a result, we were able to more clearly see his learning and personalize instruction as a result.

## COMPUTERS

Create your digital footprint! This was a great activity to get the student thinking about social media, computer games, and various other programs that they use on a regular basis. This task was not designed to be an evaluation or assessment, but rather to get them thinking about their online activity.

I like to play soccer ball and watch to because when I play soccer or watch I forget everything.

I love Real Madrid soccer team because Real madrid the best soccer team in the whole world Real Madrid has over 89 trophies.

I like cristiano Ronaldo because he is makes me love to play soccer ball and watch matches for soccer ball.

I like to stay in the home because to see my family and I love my family.

I like to play on playstation because when I play feel good.

I like to read books because it is makes smart.

I like to play with dogs and the dogs are lovely.

I like to drink a lot of pepsi because it is delishisous.

I like to eat a lot of pizza because pizza is delishisous.

This introductory google drawing activity was designed to see what they know about google drawing (colours, shapes, adding text/pictures). They later reflected on this initial activity and discussed how they would change their poster if they were asked to create one now.

Learning how to use google sheets to create graphs and charts with data that was provided.
