

Ici on parle français – PD grants for FSL teachers

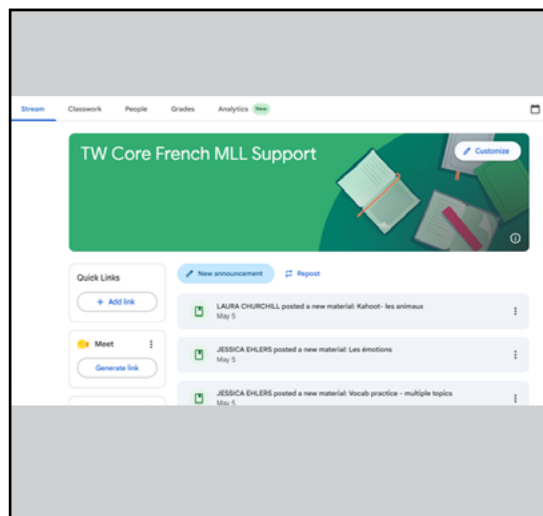

MLL resource for Core French collaborative project

Team Members:

Laura Churchill, Emily Mason and
Jessica Ehlers

School District:

Durham

What We Did

We created and compiled resources to support MLL students in Core French at our school on a Google classroom. Our Google classroom contains a variety of Youtube videos and assessment activities that support the acquisition of basic vocabulary for MLL students in the core French program and complement regular instruction in the classroom. We also curated chat mats in a shared binder to support oral communication activities.

What We Learned

We learned teaching strategies for supporting MLLs in Core French including oral repetition of vocabulary, visuals and scaffolded writing. We also learned how to leverage AI to create interactive multiple choice vocab activities for these learners.

How We Shared Our Learning With Others

We created a Google Classroom of resources and compiled chat mats in a physical binder in our shared office.

Any Next Steps We Have To Continue Our Learning

Over the summer, we will continue adding resources to the Google classroom. We will continue to plan and participate collaborative professional development opportunities to foster collaboration in the French program at our school.
