Girls' Coding Club

Team Members:
Katy Lloyd and Heather Cameron

School District: Upper Grand DSB

What We Did

We did some brief Lynx coding with some girls in the Upper Grand district school board. We coded some cards in Lynx in a tech design class.

What We Learned

We learned that this was a good activity to do with grade nines max. It was too juvenile for later grades, especially if they had some coding experience in Python or Java. The students wanted more.

How We Shared Our Learning With Others

I will provide links to the cards.
